

CHIEF INFORMATION OFFICER

There is no label for what we do at AlgoDx - because no one has built what we are building. We are developing clinically validated machine learning algorithm diagnostics to help save lives and improve cost-effectiveness in healthcare. Our journey began in 2018 and we are looking to grow our team with an experienced Chief Information Officer. You will be leading AlgoDx's IT strategy and ensure that all systems necessary to support its operations and objectives are in place. Apart from education and relevant experience, you must have every quality of a self-motivated leader and a strong strategic and business acumen.

Responsibilities

- Be responsible for setting up integrations with hospital and healthcare systems to integrate AlgoDx algorithms in the customers technical environment, also maintaining these integrations over time
- Design and customize technical systems and platforms to improve customer experience
- Plan the implementation of new systems and provide guidance to IT professionals, both staff and partners
- Set objectives, strategies to implement suitable technology to streamline all internal operations
- Tender for projects and applications, also lead projects with external consultants.
- Oversee the technical infrastructure in the organization to ensure optimal performance
- Direct and organize IT-related projects
- Monitor changes or advancements in technology to discover ways the company can gain competitive advantage
- Analyze the costs, value and risks of information technology to advise management and suggest actions

Requirements

- Proven experience as CIO or similar managerial role
- Experience in integrating solutions into complex technical ecosystems, experience of this kind of work in a healthcare setting is meritorious
- Experience working in accordance with the most common ISO standards for programming and especially programming regarding medical devices is meritorious
- Background in designing/developing IT systems including integrations
- Solid understanding of medical informatics
- A strong strategic and business mindset
- Excellent organizational and leadership skills
- Outstanding communication skills in Swedish and English

Benefits

You can be based anywhere in Sweden but if you happen to live in the capital we offer a great place to work in central Stockholm! You will get the opportunity to be part of a team with highly passionate experts. At AlgoDx, you will be offered the possibility to develop in an entrepreneurial organization with a company culture distinguished by a flat hierarchy, innovation and passion.
