

## QA / OPERATIONS MANAGER

At AlgoDx, we are developing clinically validated machine learning algorithms to help save lives and improve cost-effectiveness in healthcare. However, there is no label for what we do - because no one has built what we are building. Our journey began in 2018 and we are looking to grow our team with an experienced QA/Operations Manager. Apart from education and relevant experience, you must have every quality of a self-motivated leader and a strong strategic and business acumen.

### Responsibilities

- A key role is to implement the AlgoDx Quality Management System to ensure the quality, safety and efficacy of products, across all stages of our products lifecycle.
- Establish relevant KPI's to monitor and measure the AlgoDx QMS to ensure conformity and to continually improve its effectiveness and provide status reports and updates to CEO.
- Develop, implement and maintain an effective system for handling quality complaints and establish effective feedback mechanisms.
- Schedule, plan and be involved in internal audits in accordance with an approved schedule and monitor corrective actions.
- Work with colleagues across all functional areas to deliver AlgoDx's medical device software products and services to the highest quality standards for our clients, in compliance with all applicable regulations and guidelines.
- Collaborate with functional area leads to identify and evaluate fundamental issues pertaining to clinical study start-up, project regulatory pathway, including quality assurance and ensure solutions are implemented.
- Ensure project deliverables meet internal and customers' expectations, providing accurate projections, reports and updates, and ongoing risk assessments.
- Proactively identify and determine current and future resource requirements - both people and systems - in a rapidly growing organisation.

### Requirements

- Proven experience within clinical operations and quality assurance in a managerial role, preferably within medical device software.
- Diplomatic, collaborative, customer focused, change agile, comfortable in leading and adapting to changing priorities in a rapidly growing business.
- A strong strategic and business mindset.
- Excellent organizational and leadership skills.
- Outstanding communication skills in Swedish and English.

### Benefits

You can be based anywhere in Sweden but if you happen to live in the capital we offer a great place to work in central Stockholm! You will get the opportunity to be part of a team with highly passionate experts. At AlgoDx, you will be offered the possibility to develop in an entrepreneurial organization with a company culture distinguished by a flat hierarchy, innovation and passion.

Apply this job by sending your CV and application letter to CEO David Becedas [david.becedas@algodx.com](mailto:david.becedas@algodx.com)

AlgoDx does not accept unsolicited resumes from any source other than directly from candidates.
