

CLINICAL PROJECT MANAGER

AlgoDx is growing – are you our next colleague?

AlgoDx is a research company associated to Uppsala University aspiring to improve patient outcomes and cost-effectiveness in healthcare with machine learning algorithms in areas with unmet medical need. In 2020, AlgoDx will initiate clinical projects in collaboration with Key Opinion Leaders in Intensive Care.

The CPM has the responsibility for managing clinical projects in accordance with regulatory requirements and company SOPs. The CPM will plan and pro-actively manage study team members to ensure key milestones are achieved and projects are performed within budget and on schedule.

The Clinical Project Manager

- Holds responsibility for feasibilities, ethics and regulatory applications as well as off-site and on-site monitoring activities including query and TMF management
- Ensures that clinical studies are delivered on-time, within scope and budget, and in compliance with applicable regulatory standards
- Manages the strategic aspects of projects by identifying, analyzing and mitigating any risks
- Ensures study team members are adequately trained on project specific systems and procedures
- Establishes and maintains relationships with clinical staff, third parties and vendors
- Facilitates internal and external communication
- Implements and maintains sound business practices
- Reports and escalates to management when needed
- Contributes in review/develop procedures and SOPs

Your profile

- Master's Degree with at least 6 years of relevant experience in clinical research with medtech or pharma, preferably with experience from intensive care
- Excellent project management skills with proven ability to prioritize
- Ability to lead and manage staff
- Excellent oral and written communication skills in English
- Ability and willingness to travel to 30%
- Self-motivated doer with high ambitions

Benefits

A great place to work in central Stockholm where you will get the chance to push your career to the next level. You will also get the opportunity to be part of a team with highly passionate experts. At AlgoDx, you will be offered the possibility to develop in an entrepreneurial organization with a company culture distinguished by a flat hierarchy, innovation and passion.

Apply this job by sending your resume and application letter to David Becedas, Director Clinical Research david.becedas@algodx.com no later than January 15th 2020.

AlgoDx does not accept unsolicited resumes from any source other than directly from candidates.

By applying to this position, you consent to the collection, use and retention of your personal information for purposes related to your application. AlgoDx collects and processes personal data in accordance with the EU General Data Protection Regulation.
