

## Frontend developer

There is no label for what we do at AlgoDx because no one has built what we are building. We bring AI to intensive care to help save lives and reduce healthcare costs.

Our mission was born in 2018 and now, after a series of successful R&D advances and regulatory milestones, we are heading to market.

In this phase we are looking to grow our team with an experienced **Frontend developer**.

### Responsibilities

- Continue develop the frontend part of our platform, together with AlgoDx's current development team.
- Be part of and sometimes take lead of user interface tests.
- Active involvement in UX/UI decisions.
- Uphold our quality and performance standards by making reasoned development decisions.

### Requirements

- Good knowledge in common frontend technologies and frameworks:
  - React
  - Vue.js
  - Javascript, CSS and HTML
- Familiar with data security and encryption.
- Knowledge of different web browsers behaviour.
- Experience in implementing graphs, charts and other real time data visualizations.
- Used to work with modern DevOps tooling and workflows.

It's a plus if you also have

- Experience in building technology in a compliant environment, MedTech, Finance, etc.
- Come in contact with medical device programming
- Solid understanding of medical informatics.

We are looking for a person that combine both high skills in frontend programming and some experience and feeling for UX and UI.

For larger tasks and in the beginning of a project we have access to dedicated designers, but you must be independent and be able to find solutions and contribute with ideas when it comes to design and user interface as well.

Fluent communication skills in English is a must since we have both international partners and colleagues.

### Benefits

You can be based anywhere in Sweden but if you happen to live in the capital we offer a great place to work in central Stockholm! You will get the opportunity to be part of a team with highly passionate experts. At AlgoDx, you will be offered the possibility to develop in an entrepreneurial organization with a company culture distinguished by a flat hierarchy, innovation, and passion.

Apply this job by sending your resume and application letter to Calle Österlind, CIO:
